There's a Better Way to Manage IT

SERVER MANAGEMENT SOLUTIONS
FROM BELKIN®

BELKIN®

We Can Help

Belkin offers a centralized solution that simplifies server management through one consolidated view, so you can devote your attention to fighting the next fire, not finding it.

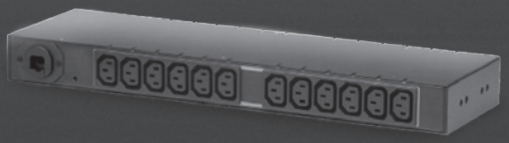
WAN

Belkin OmniView^{IP} KVM/IP

Power over IP (third-party)



Belkin OmniView^{IP} Serial Console Server

Belkin OmniView^{IP} 5000 HQ

The Belkin OmniView^{IP} 5000 HQ takes care of the endless little details—IP addresses, devices, user accounts, and more—so you can concentrate your attention on managing your systems.

Belkin OmniView^{IP} Serial Console Server

The serial console server (SCS) provides IT professionals with the tools to proactively monitor, manage, and repair today's mission-critical IT infrastructure hardware.

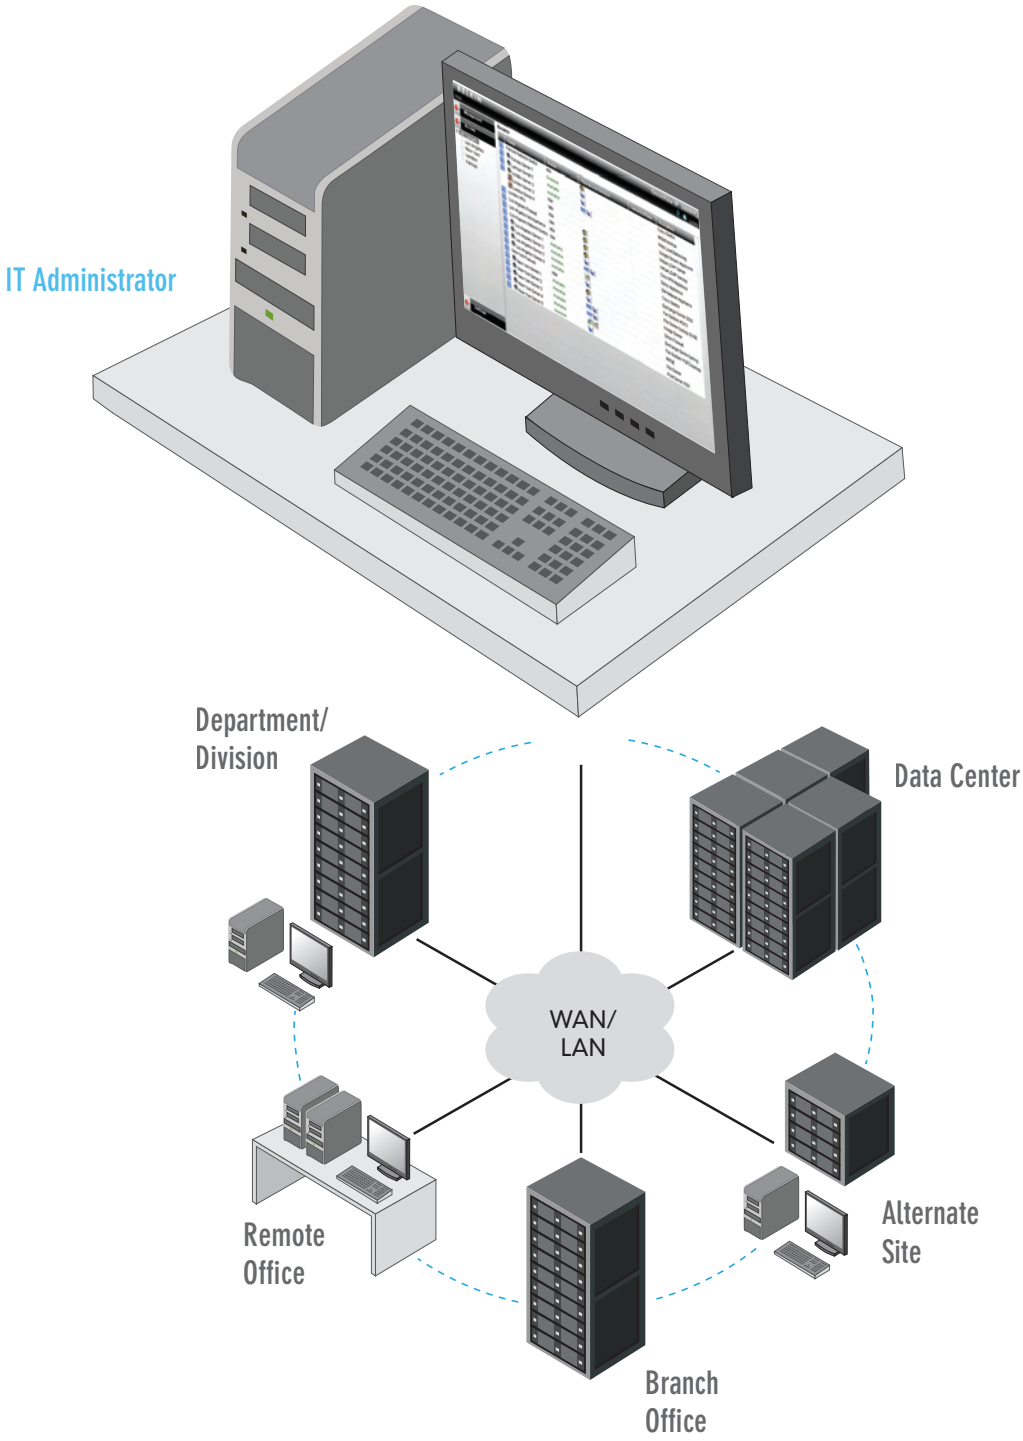
Belkin OmniView^{IP} KVM/IP

Innovative KVM/IP technology enables real-time, BIOS-level access to local and remote data center locations and enables remote lights-out management capabilities not found in traditional software.

You've Been Asked to Do More with Less

You're facing a challenge: sprawling infrastructure, widely distributed servers, and increasing service-level expectations.

Belkin can help you meet that challenge with easy-to-use, scalable server management solutions that will simplify your IT management.



Belkin OmniView®IP 5000 HQ

Through a single intuitive interface, Belkin allows you to effectively access and control KVM/IP devices, serial management hardware, in-band/software access tools, remote power, and other IP-based components.

Key Features

Centralized Access
Provides intuitive, logical access to servers, switches, third-party power distribution units (PDUs), software management tools, and other IP-based devices.

User Account and Device Management
Provides granular access to devices and ports to customize access by individual user account.

Server Processor Support
Integrates seamlessly with HP iLO service processors for KVM/IP, serial, and power management.

In-Band Management Support
Incorporates access to existing tools, such as Terminal Services, VNC, Telnet, SSH, and others.

Remote Power Integration
Manages PDUs, associating specific outlets to individual servers.

Low Cost of Ownership
Does not require additional investment as the environment grows.

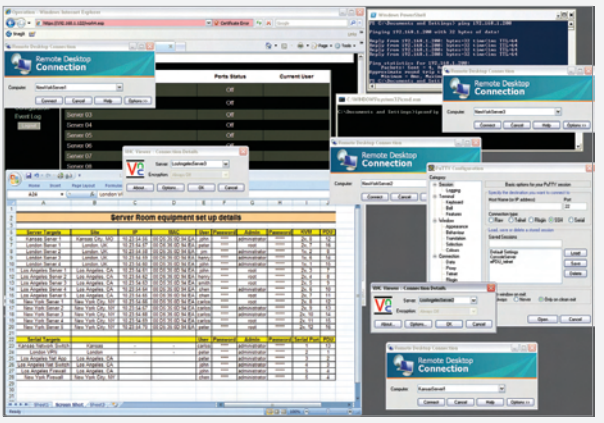
Backward Compatibility
Accommodates existing server management hardware (Belkin and third-party) to consolidate view/access capabilities.

Third-Party IP Hardware Compatibility
Supports existing third-party devices such as non-Belkin serial console servers and other IP management hardware.

Virtual Server Access
Integrates seamlessly with VMWare ESX for virtual server access.

Server management the easy way—OmniView® 5000 HQ

Server management the hard way



SIMPLIFIED

Eliminate the time spent keeping track of your dynamic, complex infrastructure, and get right to work managing your servers with complete, consolidated control over the Internet—all from a single view.

EASY TO USE

You need a solution right now—one that's easy to deploy and easy to use, without excessive training. Belkin Server Management Solutions allow you to regain control over your server infrastructure in hours, not days or weeks.

SCALABLE

Most server management systems are expensive tools designed for large enterprises—not this one. Belkin Server Management Solutions are designed for growing businesses. They easily expand to keep up with your changing needs, and requires no additional licenses or buried costs.

Specifications

Part Number	F1DP101C
Model	OmniView^{IP} 5000 HQ
Browser Support	Internet Explorer (IE) 6.0 and later; Firefox 3.0 and later
Number of Users Supported	10
Number of Servers Supported	200
Network	1Gb/s
Encryption	AES 128-bit SSL encryption over a TCP/IP connection
Dimensions	17" (w) x 10.6" (d) x 1.7" (h)
Weight	5.2lb (2.3kg)
Power Supply Type	Internal, 100~240VAC
Operating Temperature	32 to 104°F (0 to 40°C)
Storage Temperature	–4 to 140°F (–20 to 60°C)
Humidity	0–80% RH, non-condensing
Warranty	2 years

BELKIN Server Management Solutions

Belkin OmniView^{IP} 5000 HQ

The Belkin OmniView^{IP} 5000 HQ is the foundation of our consolidated server management solutions.

Series	Part Number	Description
5000HQ	F1DP101C	Centralized Management Appliance

Belkin OmniView^{IP} KVM/IP

The Belkin OmniView^{IP} KVM/IP switch provides remote control over your server assets in multiple locations.

Series	Part Number	Description
5101K	F1DP101M	1-user, 1-port
5108K	F1DP108G	1-user, 8-port
5116K	F1DP116G	1-user, 16-port
5216K	F1DP216G	2-user, 16-port
5232K	F1DP232G	2-user, 32-port

Belkin OmniView^{IP} Serial Console Server

The Belkin OmniView^{IP} Serial Console Server provides IT professionals with the tools to proactively monitor, manage, and repair today's mission-critical IT infrastructure hardware.

Series	Part Number	Description
5116S	F1DP116S	16 port serial access
